

Need for speed:Most wanted

Gameplay of NFS:Most Wanted happens in Fairhaven City. It is a normal city with a beach, industrial district, a park and a lots of roads. Player must earn SPEED POINTS in police pursuits, races and other activities. There are 4 types of races: sprint races, circuit races, ambushes and speed runs. Different cars are placed on mostly hidden places all over the city. When one finds a car, one can drive it. Most cars have more than one location. In most races police will notice your criminal activities and they will start a pursuit. The longer the pursuit lasts, the higher your heat level is. That means it will be harder to escape. Once one reaches certain number of speed points, one gets to race with one of 10 most wanted racers. These 10 most wanted racers are best street racers with fastest cars in Fairhaven. For real money one can buy DLC pack which includes:

- airport
- Bonus most wanted racers
- Bonus cars

Prepared by Nino Horvat, 5.c
